### 4. FIRST AID MEASURES

#### 4.1 First Aid:

**INGESTION:** If ingested, do not induce vomiting! If product has been swallowed, drink plenty of water or milk IMMEDIATELY. If the patient is vomiting, continue to offer water or milk. Never give water or milk to an unconscious person. Contact the nearest Poison Control Center or local emergency number. Provide an estimate of the time at which the material was ingested and the amount of the substance that was swallowed.

**SKIN:** If irritation occurs & product is on the skin, rinse thoroughly with lukewarm water, followed by a thorough washing of the affected area with plenty of soap and water. If irritation, redness or swelling persists, seek medical attention.

**EYES:** If product gets in the eyes, flush with copious amounts of lukewarm water for at least 15 minutes. Raise and lower eyelid(s) while flushing to ensure thorough irrigation. If problems persist seek immediate medical attention.

**INHALATION:** Unlikely. However, if symptoms occur, move victim to fresh air at once. If breathing stops, perform artificial respiration. Seek immediate medical attention.

#### 4.2 Medical Conditions Aggravated by Exposure:

- Pre-existing dermatitis, other skin conditions, and disorders of the target organs (eyes and skin).
